Services from a provider for which there is no Michigan PPO network and services from an out-of-network provider in a geographic area of Michigan deemed a "low access area" by BCBSM for that particular provider specialty are covered at the in-network benefit level. Cost-sharing may differ when you obtain covered services outside of Michigan. If you receive care from a nonparticipating provider, even when referred, you may be billed for the difference between our approved amount and the provider's charge.

Features of your prescription drug plan

Prior authorization/step therapy	A process that requires a physician to obtain approval from BCBSM before select prescription drugs (drugs identified by BCBSM as requiring prior authorization) will be covered. Step Therapy , an initial step in the Prior Authorization process, applies criteria to select drugs to determine if a less costly prescription drug may be used for the same drug therapy. This also applies to mail order drugs. Claims that do not meet Step Therapy criteria require prior authorization. Details about which drugs require Prior Authorization or Step Therapy are available online at bcbsm.com/pharmacy .
Mandatory maximum allowable cost drugs	If your prescription is filled by a network pharmacy, and the pharmacist fills it with a brand-name drug for which a generic equivalent is available, you MUST pay the difference in cost between the BCBSM approved amount for the brand-name drug dispensed and the maximum allowable cost for the generic drug plus your applicable copay regardless of whether you or your physician requests the brand name drug. Exception: If your physician requests and receives authorization for a non-preferred brand-name drug with a generic equivalent from BCBSM and writes "Dispense as Written" or "DAW" on the prescription order, you pay only your applicable copay. Note: This MAC difference will not be applied toward your annual in-network deductible, nor your annual coinsurance/copay maximum.
